

# LoGate™

Logate™ provided Smart Attendance systems that track the child's attendance using a simple smart card, that transmits the parents mobile an SMS that the child has reached / left school.

The Smart card-based attendance was based on **RFID (Radio Frequency Identification)** technique that works on customised hardware and software solutions.

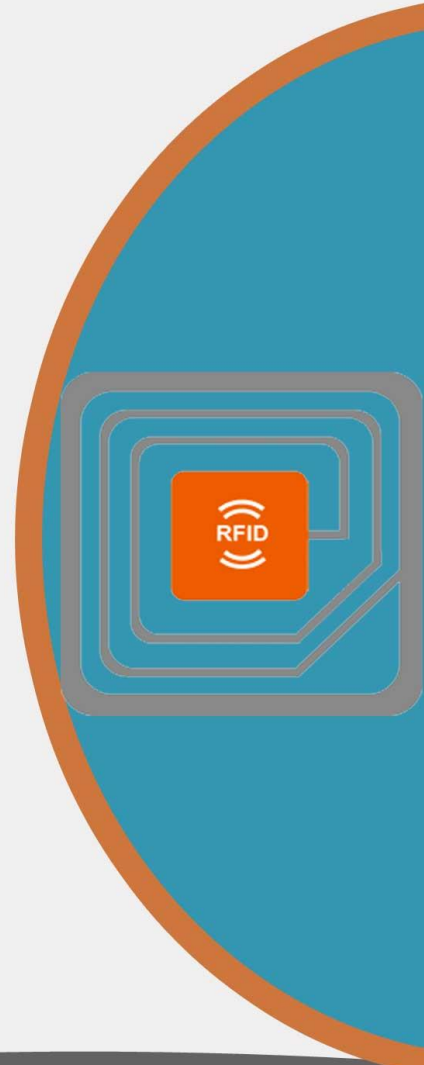

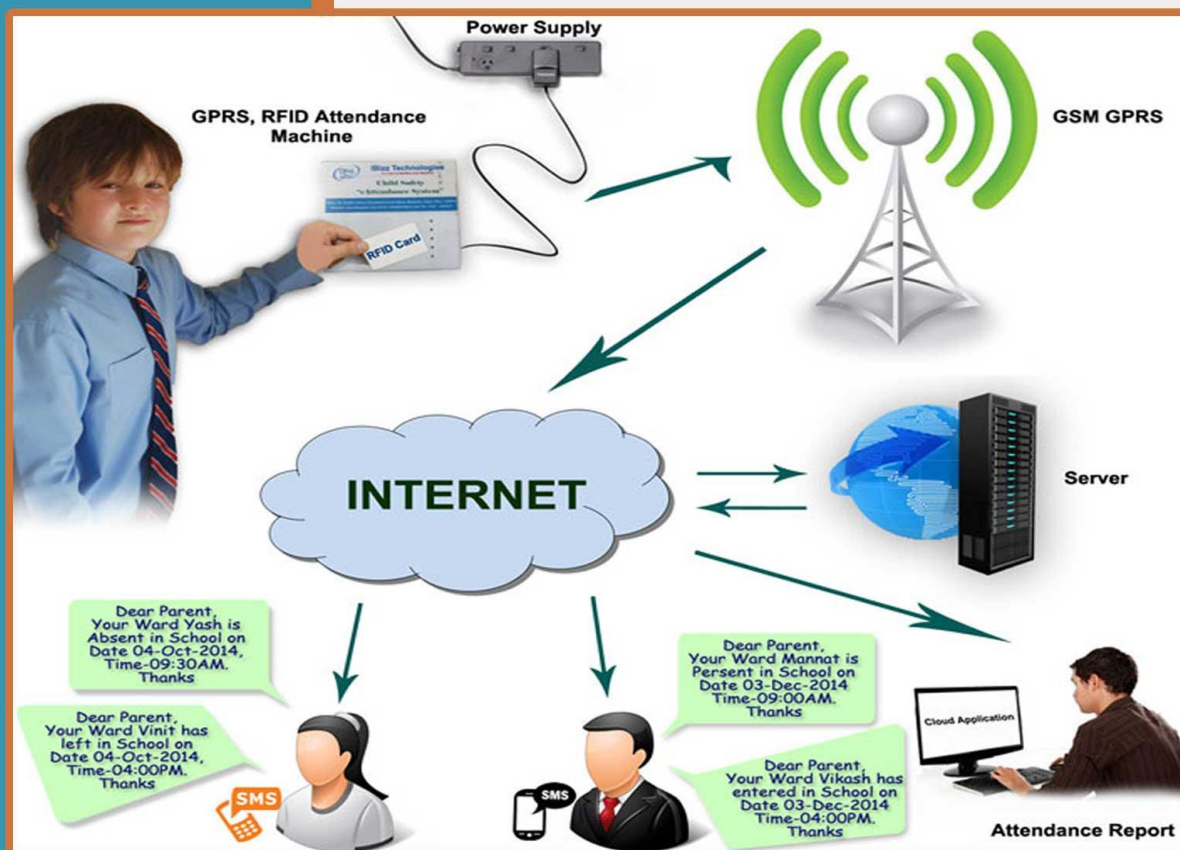

## Working:

- A student swipe his RFID or Smart Card on the device, Device sent the data on server using GPRS service .
- Device sent GPS time and RFID value on server.
- When card shown to the reader , attendance will be marked and automatic SMS will be generated & sent to the parents.

## Features:

- Plug and play system(just need to put power).
- Less administration work.
- Web based interface,can be monitored from anywhere from world.
- Very easy to operate,no need of skilled or professionals.
- No need of internet and computer.
- Real-time Student Entry Dashboard.
