

SkoolMagic

School Management Information System

"Coding The Future"

INTRODUCTION

SkoolMagic-School Management System is a feature-rich, complete school Content Management System (CMS). The school intranet effectively brings the education stakeholders (administration, parents, teachers and students) together on a common interactive platform and building a solid school community.

This scalable **online school management software** automates school's diverse operations such as **System Administration, Records and Profiles Management, Timetable Generation and Updates, Substitute Management, Fee Management, Attendance Management, Exam and Grades Management, Online Content Management and Homework Management**. The **school community portal** is marked by numerous useful features such as school calendar, events, message board etc.

This fully browser-based **school management software** can be conveniently accessed from both school intranet and public internet. Yet another advantage of this **education management software** is that it runs on minimal hardware and easily fits in the budget of schools.
